

Building Relationships. Delivering Certainty.

For more than 30 years, PIDC Construction, LLC (PIDC) has been building trusted partnerships and high-performance spaces that enable our clients' success. Founded in Boston to manage complex design/build, infrastructure-intensive projects, PIDC has grown into a top-tier construction management firm serving private, institutional, and non-profit clients across multiple industries.

What We Deliver

Certainty in Scope, Cost & Schedule

Our cross-disciplinary expertise and deliberate pre-planning methodology bring clarity and control from the earliest stages of every project. Through our integrated delivery model, we help clients make informed decisions with confidence—ensuring predictable outcomes in scope, cost, and schedule.

Flexible Delivery Options

Every project is unique. PIDC offers a range of delivery methods—from Guaranteed Maximum Price (GMP) and open-book accounting to design/build, fast-track, and construction management—all tailored to each client's objectives, financing structure, and timeline.

Trusted Partnerships

Our business is built on relationships. More than 80% of our work comes from repeat clients, a testament to the value, transparency, and accountability we bring to every engagement. As a "unifying component," PIDC works collaboratively with owners, designers, and trades to achieve shared success.

At PIDC, we're more than builders — we're partners in your vision. Our mission is to deliver value, certainty, and performance through a transparent, collaborative approach that turns complex challenges into enduring success.
